Wheat Opened Quiet and a Shade Under Wednesday's Closing Figures.

LATER CEREALS FIRMED UP MATERIALLY

But the Absence of Any Bull News and Free Selling on the Advance Checked the Upward Movement.

CHICAGO, Ill., Feb. 4. - Wheat opened quiet this morning and a shade under the cosing figures of yesterday, and for a time showed a slight tendency to weakness. Liverpool was from 3d to id lower, while London appeared to be demoralized, cargoes to arrive being quoted at a reduction of is to is id. This caused rather free offerings during which May, after opening %e lower at 88 %e, touched The discovery was soon made, however, that the offerings were being rapidly absorbed and the market began to harden. Pardridge, Lynn. Gillette, Schwartz-Dupee and other operators were good buyers, while shorts generally appeared disposed to cover on the break which has taken place during

the last day or two The Cincinnati Price Current's crop summary reported the condition of the growing wheat in Kansas unfavorable and this put little strength into the market. Then came a dispatch from Minneapolis that 100,000 bu. of wheat had been taken there this morning for export, and also brought the sensational assertion that the export engagements for three days were estimated at 3,000,000 bu. While this was not credited, the crowd seemed to think that there must be some basis for it,

this was not credited, the crowd seemed to think that there must be some basis for it, and the buying was for a time quite sharp, many of the early seliers trying to get back their wheat. For a time the feeling was rather feverish and there was a gradual advance to 89½c. But the absence of any other bull news and free setting on the advance checked the upward movement and turned the market the other way. May going to 88½c.

Renewed buying, however, sent the price up to 89½c and closed firm at 80½c. The speculative element scenici to feel that it was unwise to attempt to bear the market further on this break. Some reaction, they argue, may be looked for, and hence the crowd was inclined to be buillish. Pardridge continued his scalping operations to any, having bought heaving early, but sold quite as freely on all the subsequent advances. Wheat and flour exports from the seaboard were equal to about 450,000 bu, of wheat. Late cables showed continued weakness in the United Kingdom, with Paris and Antwerp ½c to ½c lower, but Berlin was a shade higer. New York bought a good deal of wheat early through Poole-Sheroam and Milmine-Bodman, but sold quite as freely on the subsequent advance.

Corn was more active and strong, cables were better, the shipping and export demand was good. Stocks were low and the local receipts yet falied to show any of the contract grade. The price slowly advanced nearly all day with only one or two reactions, closing within a point of the top and at an advance of from ½c to ½c.

from %c to %c.
Oats were quiet and firm and show an ad-Oats were quiet and firm and show an advance of \$4c.

Hog products opened firm on account of the lighter receipts of and higher prices for hozs and advanced further in sympathy with the strength in grains, closing generally slightly below the best figures, but at something of an advance over yesterday's last quotations.

Estimated rece pts for tomorrow: Wheat 131 cars; corn, 170 cars; oats, 120 cars; hogs, 25,070 head.

A larger ca-pacity is in operation this week and the aggregate production will show an increase Two water mills of the smaller class have been shut down for improvements to their races, while three others of a large capacity

that were idle a week ago were started Monday. This leaves fifteen mills in operation, producing at the rate of about 25,0% barreis daily. There is much complaint about the doliness of trade and were it not for the fact that most northwestern mills had a good many orders accumulated before the holidays, the output during lanuary would doubtiess have been much lighter. Most local firms report that for the week just ended they succeeded in selling an amount of flour nearly equaling their production for the same time. With the lower tendency shown in wheat, however, lower prices are constantly demanded. The domestic branch of trade is still the best, though foreigners have bid a little better for a week back and sales are frequently made that net the miller fully as quently made that not the miller fully as much as he can get in this country.

London, Feb. 4.—At the wool sales today 15,87 bales, comprising generally a good lot, were offered. There was a full attendance and the competition was active. Best greasy was keenly sought for at full rates. A circular issued by Charles Balme & Co., weol brokers, says: "Superior combing and greasy rule close to December values. Australian merinos have weakened since the opening of the series. The medium and coarser cross breeds are readily saleable at previous quotations. The finer grades of last season were purchased for America and are netlected. The American demant is almost exclusively for merinos."

LONDON, Feb. 4.—Dispatches from the various European financial centers state that all the bourses were depressed today in consequence of the report in Parls relative to the troubles of some large financial house in that city. STOCKS AND BONDS.

Business Done Was All Due to Persistent Attacks of Bears. NEW YORK. Feb. 4.—The stock market was

again active, but as usual of late the increase n the business done was all due to the persistent attacks of the bears on the industrial tocks and incidentally some of the railway list, though considerable buying of the coalers was responsible for a great deal of the animation late in the day. The most severe drive was made at the market during the forenoon, and it created a large short interest in nearly all the leading shares. Burlington. however, was the only railroad stock in which the transactions assumed any importance and a proposed issue of convertible 5 per cent bonds, by the company caused some investment selling of the stock. On the other hand in the afternoon the market became stronger under the lead of Lackawanna and with good buying in that stock and Reading, Western Union, Lake Shore and Louisville, New Albany & Chicago the shorts became frightened for the moment and covering was in order, with the effect of wiping out about all the early losses. The industrials, however, were the principal features of the day and Distillers, after opening off a fraction remained very feverish without yielding much for some time but a most vicious drive at it in the afternoon broke a proposed issue of convertible 5 per cent bonds

its price to 15% against 50% last evening. The Cordare stocks followed and Chicago Gas while not so active as usual feit the effect, yielding nearly 2 per cent.

The railroad list suffered only slight declines, with the exception of Burlington and New England, whose losses were over 1 per cent. The remarkable strength and activity developed in Lackawanna in the last hour, however, drarged the whole list up again and the early decilnes were in most instances recovered. Jersey Central sympathized closely with the leader in this rise, but Reading which had risen 1 per cent in the face of the early decilne, was held at a shade under its best price. Denver & Rio Grande preferred was also a stron feature of the early trade and a sharp rise of about 6 per cent in Edison Electric marked the final dealings. The rest of the market was traded in as a rule within narrow limits, though considerable activity was seen in a few. The opening was fairly steady at tregular but slight changes from last night's figures, and the drive at the industrials caused fractional concessions in the early trading. An advancing tendency was shown whenever the pressure was removed, however, and the rush to cover in the last hour brought almost everything up to last night's figures. The close was active and firm to strong at insignificant changes for the day. The only important changes are that of Edison Electric, which is up 5% per cent.

The following are the closing quotations for down 2% per cent.

Finanemi Review.

New York. Feb. 4.—The Post says: It requires some little time and a good deal of back filling to get the anticipated bear movement fairly under way. It did not go forward with great promotness this morning, the strength of the coar stocks and an unexpected receipt of \$39,00 of imported gold not at first known to be merely in transit, causing some natural hesitation. But the rally was shortlived. Towards moon the decline was proceeding rap diy and the demoralization had become so general that old hands devoted themselves merely to watching for ev dence of covering purchases by the bear leaders. The rule of the recent market has been about twenty-four hours decline before the leaders buy in their shorts, and twenty-four hours more before the small fry know that the crash is over. Ostens, bly the throwing over of stocks on the exchange was caused by a further advance in stering rates, which, of course, was accompanied in the board room by stories of an immediate and enormous export of gold. When the terror over this impending catac, ysm was at its worst the larger sears of course bought in their stock, and a recovery ensued which progressed with unexpected rapidity up to the close.

CATTLE—The paucity of the supply so far this week has had a very saintary effect on he market. Trading was again lively and sellers had little difficulty in obtaining stronger prices for almost anything in the steer. Here, Shippers did practically nothing, claiming that prices paid by the dressed beef men left them no margin and such is undoubtedly the case. Local killers want cattle and the active competition among themselves has put prices up to a very satisfactory flaure compared with other markets. Frices were strong to 10c higher than Wednesday, an advance so far this week of from 2 c to 50c. There were comparatively few good 1,150-1b to 1,150-ib steers so d at from \$1.70 to \$1.20, while fair to good steers weighing from 1,390 to 1,30 ibs. brought from \$1.20 to \$3.50. Some light this suff sold around \$1.00 to \$1.20. It was a good brisk market and the close of business found everything decent sold.

Butcher stuff of all grades sold generally a good 10c higher and the movement was free at the advance. Almost everythin; in this line

Butcher stuff of all grades sold generally a good loc higher and the movement was free at the advance. Almost everything in this line is seiling anywhere from 25c to 4 c higher than last week and easy to sell at that. Local houses were the principa, in fact practically the only buyers, but they took hold as if there was a famine coming and an early and good clearance was effected. Good to choice cows and helfers sold from \$1.55 to \$1.46, medium to good cows from \$2.05 to \$1.26, with common and canning stuff largely at from \$1.55 to \$2.00. Hous.—Receipts were 2.50) loss than a week
ago, the past four days showing a decrease from
5.000 hogs compared with the same four days
of last week. The general quality of the
of crings was nothing to brag of aithough
taken as a whole the hogs could by no means
be called poor or even common.

There was a good shipping demand for light
and light mixed hogs and local dealers seemed
to want that class of hogs also. Inquiry for
heavy weights was almost entirely local.
Business opened out rather slow and the
general feeling seemed to be easier, but as
more favorable eastern advices began to
arrive and it became apparent that the supply
would not be any too liberal a little
more life was infused into the business
and trading was pretty briss from that on to
the close Good heavy hogs were about steady
at \$4.30 to \$4.40, common, heavy and mixed
packers firm at \$4.25 to \$4.30, light and light
mixed hogs stron; from \$4.17\frac{1}{2}\$ to \$4.35. The
general market was active and firm, the pens
being practically cleared both of fresh receipts
and holdovers, the buik of the hogs acting
at \$4.35 to \$4.5, the same as on Wednesday, the
average of sales being \$4.30\frac{1}{2}\$, against \$4.29\frac{1}{2}\$

Chicago Lil., Feb. 4.—(Special Telegram to THE BEE.!—The situation was again in the cattle sellers favor, supplies continuing light and the demand developing a fair degree of activity. No class of cattle sold very mate-rially higher than on Wednesday, nor was there any grade for which the market was not stronger. The most attractive stocks granerrially higher than on Wednesday, nor was there any grade for which the market was not stronger. The most attractive stocks reperally sold at from 5c to 10c advance. That applies to butchers and canners' stock as well as to shipping grades. The range of quotations was from \$1.25 to 15.75, and trading was principally at from \$2.00 to \$4.75, or at from \$2.00 to \$2.75 for cows and buils and at from \$2.00 to \$4.75, or at from \$2.00 to \$4.75, or at from \$2.00 to \$4.75 for dressed beef and shipping steers. That there were so few sales at over \$4.75 to \$4.75 for dressed beef and shipping steers. That there were so few sales at over \$4.75 to \$4.75 for dressed beef and shipping steers. That there were so few sales at over \$4.75 to \$4.75, and for comparison of the offering graded above "good;" cows, buils and half-fatted steers predominated. There was a good inquiry for stockers and feeders at from \$2.00 to \$4.75, and for veal calves at from \$2.00 to \$3.25. The market closed firm for all grades of cattle.

Hogs opened higher. There was an active eastern demand and for good sorts, whether lighs or heavy, the average price was about 5c better than for Wednesday. The best light sold around \$4.65 and there were sovera; sales of heavy and medium weights at \$1.75, but after shippers had "filed up" the situation was different. Loca packers would not pay the prices current at the opening of business. They demanded a reduction of 1 c and the later trading was on that basis. The market is likely to pursue this see-six course for

later trading was on that basis. The market is likely to pursue this see-saw course for some time to come, as local packers seem determined to keep prices down.

The sheep market was firm today, not because of activity in the demand, but as a natural consequence of the light arrivals since Moniay. Shippers bought very sparingly and the demand from the local combine was not brisk. Saies were on a basis of from \$2.25 to \$1.25 for cu.is, \$1.50 to \$1.25 for rood to choice. Extra wethers are quoted at from \$5.35 to \$5.00. The market for lambs was unchanged at from \$4.00 to \$5.15.

Receipts were: Cattle, 10,000; hogs, 28,000; sheep, 6,000.

Fac-Simile of Letter from

Mrs. Henry Ward Beecher.

40 Orange Street, Brooklyn, N. Y., Feb. 11, 1890.

"I have used Allcock's Porous Plasters for some years for myself and family and, as far as able, for the many sufferers who come to us for assistance, and have found them a genuine relief for most of the aches and pains which flesh is heir to. I have used Allcock's Porous Plasters for all kind of lameness and acute pain and, by frequent experiments, find that they can control many cases not noticed in your circulars."

The above is the only testimonial I have ever given in favor of any plaster, and if my name has been used to recommend any other it is without my authority or sanction.
